You've had a Lakewood guitar for a long time and now you cannot find it within our guitar range? Maybe you are luckier here. . . This is a list of older guitar models that have been taken out of the series program. Most of them are still available via our customshop.
A 12-string guitar fills time and space with its sound: even simple chords sound spherical. The M-14-12 Edition 2022 projects this to perfection and pairs it with the compact body shape and best accessibility of the upper frets of the fingerboard.
