You've had a Lakewood guitar for a long time and now you cannot find it within our guitar range? Maybe you are luckier here. . . This is a list of older guitar models that have been taken out of the series program. Most of them are still available via our customshop.
The M-1 CP was part of the basic series from 1999 until 2005. The installed pickup systems are B-Band A-1, on earlier models it was the B-Band "Core99". The standard necks are 48mm wide.
