You've had a Lakewood guitar for a long time and now you cannot find it within our guitar range? Maybe you are luckier here. . . This is a list of older guitar models that have been taken out of the series program. Most of them are still available via our customshop.
We know Padouk as a high-quality tonewood and love the typical sound characteristics, which are characterized by volume, complexity and precision. All this, plus stunning good looks and light weight lead us to the M-37 Edition 2022.
